

Kotibah mohamad

Front-end developer and software Engineer

+963991100863 [Portfolio](#) - [GitHub](#) - [LinkedIn](#) Damascus/Syira kotibahmohamad@gmail.com

SUMMARY

Fresh Informatics engineer with an A+ graduation project and a passionate problem-solver. Specialized in web development with MERN stack technologies I can develop both the front and back end.

EDUCATION

- 2022 - present **MASTER OF WEB SCIENCE**
Faculty of Graduate Studies - syrian virtual university (SUV)University
- 2017 - 2022 **Bachelor of Informatics Engineering**
Faculty of Informatics Engineering, Tishreen University

EXPERIENCE

- **Graduation Project**
Frontend Web Developer/Designer | 02/2022 - 10/2022
I was responsible for designing and building a fully responsive Web *Client* and an *Admin Dashboard*. Collaborated with the backend to bring consistently updated and secure data to the user.

PROJECTS

- **Food-order:** web-based food ordering application. The app is fully responsive to small devices (e.g., mobiles or tablets). Support Arabic and English languages. Search for products in Arabic/ English. Users can create/update/delete accounts, add/remove meals to/from the cart, mark meals as favorites, place/cancel an order, and track order status. [[demo](#) - [code](#)]
 - Implemented in *ReactJS*
 - *Redux toolkit* for state management
 - *Chakra-UI* for building the CSS components
- **Food-order-Dashboard:** UI management tool for managing Rawaa-app. The app has quick summary widgets, graphs for displaying data, and sortable, paginated, and filtered tables to display data.
Admin can add/edit/delete data from (e.g., products, categories).
Cashiers can only track and change order status.
Login Info: Admin(admin - admin5). [[demo](#) - [code](#)]
 - Implemented in *ReactJS*
 - *React-Query* for fetching and syncing data with the server
 - *Chakra-UI* for CSS

- **NASA Mission Control:** Space exploration project. Find your favorite planet from the list of habitable planets, schedule your trip, and have fun. [\[code\]](#)
 - The client is implemented in react.js
 - The server is implemented in Express.js
 - pm2 for process management
- **Developer Team:.** [\[code\]](#)
 - Implemented in JavaScript, HTML, and CSS ,Sass
- **RESTURANT:** [\[code\]](#)
 - Implemented in HTML, CSS, and JavaScript , Laravel
- **AskMe:** People ask questions and others answer them. Questions can be threads or anonymous questions. It is a file-based system that allows parallelism.
 - Implemented in C++
 - Object-Oriented Programming
 - Data Structures
- **Graduation-Project: The single window automation system at Tishreen University to facilitate all students' affairs in submitting everything related to the university electronically** [\[code\]](#)
 - Implemented in php /laravel
 - Html ,Css , JavaScript
 - mySql
- **FaceBook-comment:** Create a login interface and a full comments page like Facebook [\[code\]](#)
 - Implemented in jsonServer
 - Html ,Css , JavaScript
- **Event-calender-main:** Tasks and projects scheduling system [\[code\]](#)
 - Implemented in Python
 - Html ,Css , djanjo
- **Movie-list:** A site for watching and downloading movies, suitable for use with large and small screens [\[code\]](#)
 - Implemented in php
 - Html ,Css , JavaScript , mySql
- **Kotibah_4_IT:** Program to choose the winner at random With a site protection (front-end and back-end) [\[code\]](#)
 - Implemented in php
 - Html ,Css , JavaScript , mySql

ACHIEVEMENTS

- **Competitive programming:** 150+ problems solved, and more see [[github](#)]
- **Certifications:**
 - Node - Complete NodeJS Developer in 2023 (GraphQL, MongoDB) [-[github](#)]
 - React - The Complete Guide (incl Hooks, React Router, Redux) [[github](#)]
 - The Complete JavaScript Course 2022: From Zero to Expert! [[github](#)]
 - Build Responsive Real-World Websites with HTML and CSS [[github](#)]
- **Projects:** 30+ completed projects in different languages and technologies [[github](#)]
- **Kotibah_4_IT:** I OWN A PAGE KOTIBAH_4_IT TO SOLVE PEOPLE'S DAILY PROBLEMS WITH MATTERS RELATED TO SOCIAL MEDIA AND OTHERS, AND TO DISTRIBUTE PRIZES [[FaceBook](#)]

SKILLS

- **Programming:** C++, Javascript, Python, OOP, Data Structures, Algorithms, Design Patterns.
- **Technology:** HTML, CSS, ReactJS, Redux toolkit, React-Query, Chakra-UI, Bootstrap, NodeJS, ExpressJS, php, json, Sass, Basic of web security , pwa support, TypeScript
MVC Pattern, Github, mySql ,Es Lint ,web Design ,scrum ,SEO ,RestApi ,project Management Tools , strong Communication , socialMedia Expert ,Digital Marketing

LANGUAGES

- **English:** Professional working proficiency
- **Arabic:** Native or bilingual proficiency
